## Introduction

---

This is a complete set of styled playing cards. Our artists put their heart and soul into each of these cards, so your players will have a unique experience playing games like Poker, Blackjack, Solitaire, and other Casino games. Each card is detailed and suitable for HD games.

### Pack contains:

- Set of 52-cards and 2x Jokers
- Two-color options for each card (dark and light theme)
- Two patterns for the card back.
- Layered PSD files, so you can easily adjust cards to your needs

# Versions

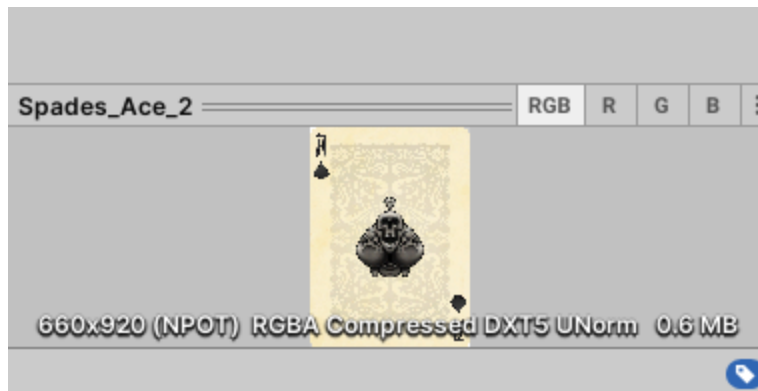

1.0 First release

## Naming

---

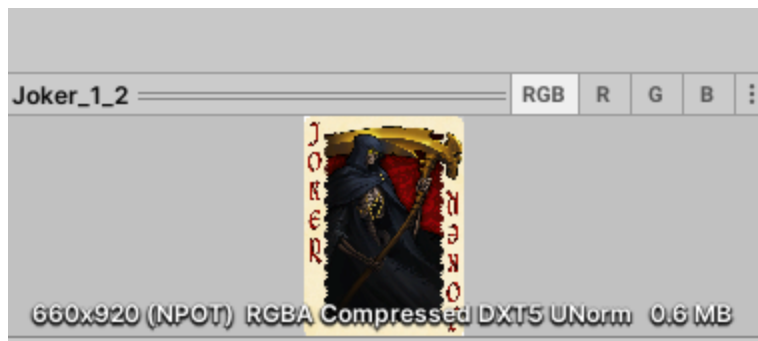

We used simple naming, where the first word describes a card suit, the second word is a card name and a third indicator is a number, which shows the color type, **1** is a dark option, **2** is a light option.

### Examples:

There are some exceptions like jokers and back cards, but they use very similar naming.

### General Project Settings

For this Asset, we used Unity 2020.3.7f. But since all assets are simple sprites and PSD files, they should work with any version of Unity. If you will have any troubles please contact our support at [info@moon-t.com](mailto:info@moon-t.com).

### Controls

Controls descriptions presented in every scene on start, if in some cases you won't see them use arrow keys or space bar to navigate in the Demo Scene.

### Scripts

**NavManager** - script that allows basic navigation for Demo Scene.

## Troubleshooting

---

We are happy to hear back from you. Our main goal is to provide developers with a powerful tool that will help you to bring your imagination into life and of course, have fun in the process.

If you have any problems or suggestions please feel free to contact our team at

## Legal Info

---

It was hard work to create this pack, so you are allowed to use it in your projects only if you purchased it at Unity Asset Store or other legal stores. Otherwise, you are not allowed to use this pack since you are:

- A) Breaking the law.
- B) You are stealing other people's hard work.
